

ARGO 7.0

POWERED BY TDL™

Triton's first touchscreen ATM, the ARGO 7, comes standard with a 7" wide color display and includes all the innovative features you've come to expect from Triton. The eco-friendly, printer-less model sends receipts via e-mail or text message and will save ATM deployers time and money over the life of the machine. No more service calls to change receipt paper or clear paper jams, and with a reduced carbon footprint it is better for the environment. ARGO 7 is available with many dispenser options, and is ideal for cost-conscious retail locations.

Running Triton Dynamic Language on the reliable Windows® CE® platform, the ARGO 7 is ADA, EMV and PCI 5 compliant. Available with a UL291 business hours or Level 1 safe. The ultra-secure ARGO 7 features advanced dispenser security, NFC, and Triton Key Management and options.

Thank you for supporting American workers!
